Seth Dodd, General Manager of Southeastern Equipment Rentals located at 802 W Meighan Blvd, Gadsden. Southeastern Equipment Rentals originated in Fort Payne, Alabama in November of 2017 and has since opened stores in Centre and Gadsden. In November of 2018 we are reaching out even further by opening another store location in Albertville. We have been extremely blessed with the opportunity to serve and provide equipment locally, statewide, and in the Southeastern United States. When we began this journey in November of last year we had one simple goal in mind, our goal was to provide new, clean equipment at the best price available to homeowners and contractors while providing fast and friendly customer service.
